Dakenov Dzhikhangir

BEGINNER CYBERSECURITY SPECIALIST

ABOUT ME

As a beginnercybersecurity specialist, I bring a solid foundation in network analysis, utilizing tools like Packet Tracer and WireShark, along with proficiency in investigating ARP tables. Basic knowledge in SQL databases including Postgre and Oracle complements my skill set. Participated in two hackathons, one involving the development of an OS system for residential cooperatives and the other focusing on crafting a user-friendly platform for a charitable foundation. Proficient in frontend development with introductory skills in bot creation

EDUCATION

Astana IT University

2022 - present | Informational security, Cubersecurity

WORK EXPERIENCE
